

## How to target **Viber**

With [Rapidhits](#) it is possible for your ads to be displayed on **Viber**. Follow steps below to correctly set up your campaign.

**Viber** traffic is available only for Native campaign type.

Once you go through **basic campaign settings**, you need to move to **advanced settings**. Check out our quick start guide for Native campaign here: <https://www.rapidhits.net/new-campaign-guides/>

In **advanced settings** search for **Supply Partners**. There you need to select **Polymorph** SSP, as it is the one targeting **Viber** traffic.
